**There are many great reasons to use and/or sell Wonder Wafers® at your business.**

**Here are just a few:**

- No more liquid problems!
- No more waste or spills!
- No more freeze problems!
- No more spray bottles!
- No more expensive applicator machines to have to buy and maintain!
- No more guessing if the customers air freshener was applied properly or if at all!
- Greatly reduces the chance of staining or damage!
- The uniqueness of Wonder Wafers® will increase your sales, profit margins and more happy customers!
- Wonder Wafers® work much better than liquid air fresheners simply because they release the perfume oils evenly and perfectly over 3-4 days instead of being overwhelming in the beginning and weakening much too rapidly!
- Wonder Wafers® are extremely cost effective versus all leading liquid, aerosol and other types of auto air fresheners and fragrances!
- Increase sales with brand name recognition! Wonder Wafers® are proven, known and sold worldwide!
- Wonder Wafers® are 'air activated', environmentally friendly and contain ZERO known carcinogens.

# About our Company

Hello - and Welcome to the highly profitable world of Wonder Wafers INTERNATIONAL. We are now entering our 43rd year as a leader and innovator in the Air Freshener Industry. Our Corporate offices along with our 35,000 sq. ft. factory/warehouse is located in the Dallas/Ft. Worth area of Texas in the U.S.A.

Ten plus years of owning and operating several family owned full service and exterior car washes greatly helped Wonder Wafers® owners, founders and inventors (David and Cheryl Mobley) lay the foundation to understand, re-shape and then perfect the automotive air freshener industry into what it has become today! Our Company has invented many "firsts" in the Industry!

**1980:** 1st to introduce the popular 2 oz. Pump Spray Retail Air Freshener.

**1985:** 1st to expand and introduce the largest line of Air Freshener Selections to the industry.

**1984:** 1st to introduce a non-flammable Liquid Air Freshener for much safer shipping and usage.

**1986:** 1st to introduce INSTA-SCENT - the "first-of-its-kind" Liquid Concentrated Air Freshener

Although we are very proud of these "first time ever" achievements - we knew there could be a vast improvement in the application and usage of automotive Air Fresheners. In 1995, after carefully listening to our customer's wants, needs and concerns, we set out to change the way air fresheners were used and/or sold throughout the industry. Using our many years of experience in the Car Washing, Automotive and Air Freshener Industry, we invented and introduced another "1st" that virtually changed the way most industries were applying and/or selling air fresheners - **WONDER WAFERS.**

## About Wonder Wafers

Wonder Wafers® are the "first of its kind" ultra scented Wafer Air Fresheners that are so unique, they received a U.S. Patent in 2000 along with a second U.S. Patent in 2011 including several more Patents Pending. After their introduction, Wonder Wafers® grew in such popularity that they are now the preferred Air Freshener choice of many industries around the globe. In fact, there have now been over **ONE BILLION Wonder Wafers® sold worldwide!!**

## Research and Development Our facts and findings:

**1. THE MATERIAL:** There was only ONE material we found in existence, that absorbed and permeated air freshener perfume oils effectively. We tested many forms of cotton, cloth, cork, plastics, felt, wood and many other types of materials. **ALL OF THESE FAILED MISERABLY!!** Only the specially woven paper blend that we developed and still use today passed the test, and needless to say, it performed superbly!

**2. THE FORMULA:** Our proprietary formulated blend of high grade lifters and realistically true perfume oils took several years of trial and error tests to finally perfect. In fact, once completed, our formula worked so well and was so unique, that it was awarded a U.S. Patent!

**3. PRINTING:** Our specially woven blend of paper also allows us to print important information directly on the Wafer!

Kevin Harrington  
*Kevin Harrington*

Wonder Wafers International is excited to announce our partnership with the one and only Kevin Harrington - widely considered as the Inventor of the now universal Infomercial, as well as the Founder of the 'As Seen On TV' empire. You may also recognize Kevin as one of the original Sharks on the wildly successful 'Shark Tank' TV series!... As an endorser of Wonder Wafers®, Kevin and his highly regarded 'Shark Discoveries' team will be heading up all of Wonder Wafers TV Infomercials as well as all social media and other multi-media campaigns.
